

Our SUSTAINABILITY Statement

WE ARE AN INCLUSIVE MARKET THAT STRIVES TO REFLECT AND EMBODY COMMUNITY VALUES.

We are committed to working with our customers and traders, now and in the future, to carefully manage our resources to foster a sustainable future for the environment in which we live.

We encourage socially responsible and sustainable initiatives to support our local businesses, traders and customers.

We will support traders to work with wholesalers and distributors to transition away from single-use plastic packaging and plastic bags.

We are committed to collaborating with our customers and traders on the importance of waste minimisation preserving resources and reducing our collective environmental footprint.

**WE ARE COMMITTED TO PROGRESSING
A MORE SUSTAINABLE MARKET**

Our Six SUSTAINABILITY Actions 2022-2024

1. BEING BETTER

Through leadership and advocacy, we will demonstrate the importance of sustainability. Our commitment will be reflected in our actions with respect to waste management, reducing our carbon footprint and collaborating with our community.

2. REDUCING OUR CARBON FOOTPRINT

Through the City of Adelaide's partnership with Flow Power we will continue to meet our own electricity needs from a mix of wind and solar power. Sustainability will be a key consideration for all new infrastructure projects, stall fit outs and upgrades.

3. REDUCING PLASTIC AND EXCESSIVE PACKAGING

We will reduce single-use plastic and excessive packaging. We will introduce and encourage the use of compostable bags across the Market.

4. WORKING TOWARDS ZERO WASTE

We will continue to collaborate with our Traders and customers on practices that support the conservation, recovery, and reuse of materials to divert waste from landfill.

5. FOOD RESCUE

We will support the distribution of high-quality left-over food to people experiencing food insecurity through our partnership with OzHarvest.

6. OUR COMMUNITY

We will collaborate with Traders to encourage behaviour change with regards to shopping habits and reducing plastic use. We will listen and work with our community to progress their sustainability ideas, needs and wants.

SUSTAINABILITY IS CRITICAL FOR THE FUTURE OF THE WORLD IN WHICH WE LIVE. WE HAVE AN ONGOING COMMITMENT TO OUR COMMUNITY TO STRIVE TO BE SUSTAINABLY BETTER SO WE CAN CONTINUE TO BE THE MARKET YOU KNOW AND LOVE.
